The TEEN TATTLER

By DONALD BYRD

There was a senior slumber party given by Shirley Bufkin at her house Friday night. Things were really "rockin'". A few juniors and sophomores had the privilege of attending.

Saturday night Milford "Hog" Fawcett entertained more Bay High seniors at a party at his house. Some juniors and sophomores were asked in.

Sunday afternoon there was a little get-together at Chesapeake. Those attending were Kent Sollier, Billy Beeland, Nelson Lathrop, Connie Ripple, Donald Cole, Ray and Bobby Clapp, Bob Parker, T. J. Boudreau, Clayton Adams, Donald Stone and Charles Tartavouille.

Harvey Wynn, birthday party, held on the beach last Saturday evening, was a great success and well enjoyed.

The contest in the annual Bay High hat show, Mrs. Ruth Landry has been elected "Mrs. Bay High" of 1955. But that is not definite. The election was held by the students about three weeks ago and the results have not been posted as yet.

Got any news? Send us your news items to the "Teen Tattler" and we'll publish them.

Douglas Starnes, Pat Crasto, Dianne Seizevich and Patsy Shadon gave a party Saturday afternoon for the seniors at St. Joseph's. The party started at William's Pool at Galabank-on-the-Gulf and it started to rain and the girls went to Patsy Shadon's house. There they played records and ate.

The menu was potato salad, barbecued beef, Ritz crackers with cheese, pickles, olives, cocktail onions, and ice cream.

Almost all of the senior class came with the mothers of the girls giving the party.

Mrs. Glover says that there will be no birthday parties at the Youth Center on Fridays during the month of May due to all of the school activities going on at the Youth Center. She said that on the first Friday of June she will give a big party for all the kids whose birthday was in May.

She also stated that in a few weeks she will hold a meeting of all the members of the Youth Center to let them decide on the ways it will be open during the summer.

IMPORTANT IN MISSISSIPPI!

What is it?

The Arch at Vicksburg National Military Park keeps alive the memory of the important battle. This is the most perfectly preserved of any of the world's major battle fields. Every maneuver in the siege and defense of Vicksburg can be traced in the unchanged terrain of the park.

there's no doubt about the importance of the beer industry in Mississippi. Wholesalers and retailers have a \$29 million investment here... employing over 14,295 Mississippians... and the beer industry is the fourth largest taxpayer in the state, paying over \$4 million a year. It is largely through public acceptance of legally regulated beer, as the beverage of moderation, that beer has grown in importance to Mississippi.

We Are Saps

Yes, that's apparently what Gov. White thinks.

First he blows hot and heavy about how he's going to smash the Oasis (or the Pines) to bits. Next thing you know there's a quiet little chat in Jackson with a couple of local folks—and now the governor doesn't have time to worry about gambling joints on the Gulf Coast.

If ever there was anything resembling a deal, this is it.

Actually, from the start there was suspicion about the great governor's actions. First of all, there was doubt that these gamblers would invest so heavily in a building without the go-ahead from someone. Then came the big National Guard raid.

Remember that raid? It happened on a Saturday afternoon. The Echo got a phone call from the guard, saying they were at the Oasis and to come quick with a camera before they smashed the place up.

When the Echo got there the joint was crawling with plenty of chiefs but no Indians. That is, there were majors and colonels running around like mad and no privates.

Well, everyone knows a major or a colonel can't swing an axe. Only privates can do that. So they called Camp Shelby for a truckload of privates, axe-specialists preferred.

That provided the delay for General Wilson to make a quiet little phone call to the governor. We stood next to him while he called. Approximately, here is what he said:

"Sir, we're at the Oasis. There's plenty of gambling equipment here. We're going to smash it up like you told us to."

There was a pause.

Then the General said:

Yes sir . . . 48 hours . . . then we break it up."

So then he hung up and told the Oasis manager: "You have 48 hours to get this stuff out. Then we'll break it up."

Immediately, there was whisper of "a deal." A conference was scheduled in Jackson for the coming Wednesday, someone said.

But on Wednesday an Echo reporter called the governor by telephone. The governor was vengeful. "They better not open up again."

Well, they opened anyway. And now the governor says he doesn't have the money to send the national guard down here again. That's foolishness. The national guard gets paid whether it is raiding gambling joints or practicing tiddlywinks.

The governor also says he won't close one and leave all the others open.

He is absolutely right about that, of course. But no one has ever asked him to close one and not the others.

Actually, we feel that if there is to be gambling on the coast, the Oasis (or the Pines) is not much worse than any other place. It has one extra bad feature in that it's owned by outside interests, and one green light may bring an invasion wave of the syndicate trash that will make this country's present woes ten times worse.

But the basic fact remains this: gambling is illegal. The Oasis (or Pines), is not much worse than anyone else's law-breaking—except no one has come up with a good reason why there should be any law-breaking at all.

Why

Southern Bell Cannot Surrender To An Arbitrator Its Responsibility For A Vital Public Service

For weeks now, officials of the CWA Union have been maneuvering to get the issues in the Telephone Strike turned over to an arbitrator for settlement.

There should be no misunderstanding about what this kind of settlement would mean.

It would mean that a third party would be called in to write a whole new union-management contract—a contract that involves every aspect of this business.

His decisions would be final and Southern Bell would be committed, in advance, to accept them, regardless of their effect on the cost and quality of telephone service - on the job security and job opportunities of telephone employees.

WE ARE NOT WILLING TO SUBJECT THIS VITAL PUBLIC SERVICE TO SO GRAVE A RISK.

In the telephone strike, arbitration of the whole dispute, undoubtedly, would create more problems than it would solve.

PROPERLY APPLIED ARBITRATION IS OFTEN A USEFUL TOOL

It has had an important place in our relations with the Union for many years. In current bargaining, we have offered to expand its use as a means of settling DIFFERENCES THAT ARISE UNDER THE NEW CONTRACT ONCE IT IS SIGNED.

In fact, practically EVERY provision of the new contract proposed by the company is subject to arbitration.

Let there be no misunderstanding then about Southern Bell's position on the PRINCIPLE of Arbitration.

On the other hand, arbitration can be taken to extremes. When it is proposed, for instance, as a means for settling fundamental company policy matters - such as a whole new labor contract - it undermines the effective management of the business.

It also invites serious risks that could do great harm to the financial integrity of the business.

The basic principle involved is that Southern Bell, which is charged with the sole responsibility for telephone communications in the area it serves, cannot surrender that responsibility to others.

Our obligation for service UNDER THE LAW Cannot be delegated.

In the telephone strike, arbitration would be just another form of compromise. The real issue at stake is the no-strike clause to assure continuous service to the public while the new contract is in effect. CERTAINLY THE PUBLIC'S RIGHT TO CONTINUOUS SERVICE SHOULD NOT BE SUBJECT TO COMPROMISE.

THREE QUARTERS OF CENTURY OF SERVICE TO THE SOUTH

Southern Bell has been privileged to serve the South for 75 years. It does not take lightly its responsibility for providing this necessary service.

The company pays good wages and in current bargaining has offered to make them better. The telephone pension and benefit plan long has been a model for other companies. It has been in effect since 1913.

Working conditions are second to none in all industry. We have offered many improvements in our labor contract and have accepted many union proposals.

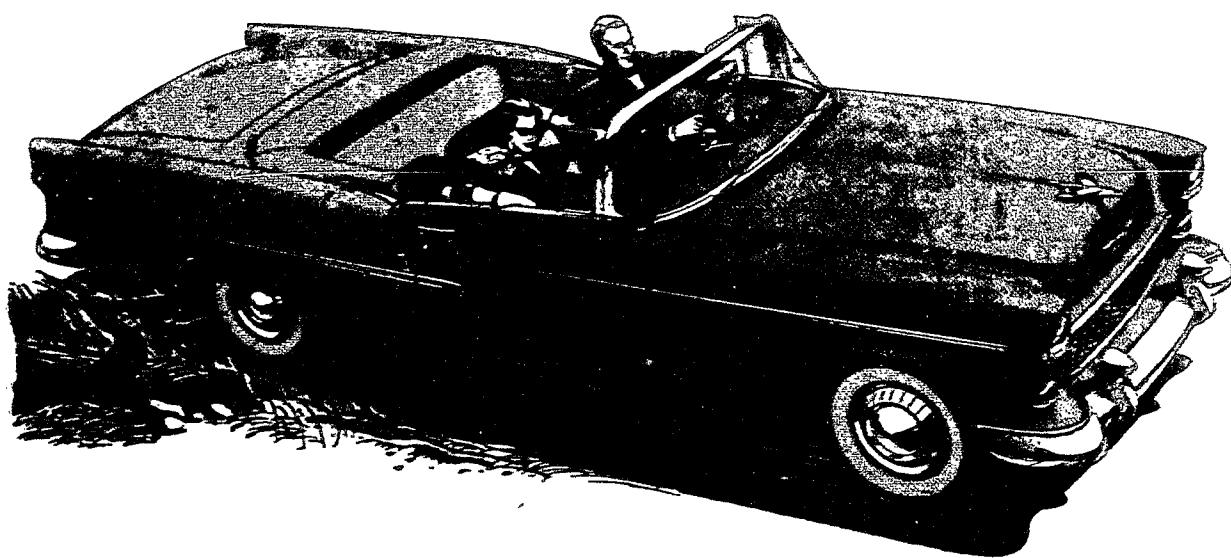

Including all the changes we have proposed, the costs of providing telephone service would be increased by more than \$7,000,000 a year under the new contract.

We are willing to guarantee these wages and working conditions. In return, all we ask of union leaders is that they accept their responsibility for agreeing to protect the public against quickie strikes FOR THE LIFE OF THE CONTRACT.

This they refuse to do on any reasonable basis. They say in effect, "We will take all you have offered and then we want an arbitrator to come in and decide how much MORE we can get." It is this attitude that is prolonging the strike.
